### **DETAILED ACTION**

This Office Action is a reply to the Paper filed 30 March 2004 in response to the Non-Final Office Action mailed 25 February 2004. Claim 32 was considered in the 25 February Office Action. Claim 32 was amended in the 30 March Paper. Claim 32 is pending and under consideration.

#### ***Response to Amendment***

##### Claim Rejections - 35 USC § 112

Rejection of claim 32 under 35 U.S.C. 112, second paragraph, as being indefinite for the reasons set forth in the 25 February Office Action is withdrawn.

#### ***New Grounds Necessitated by Amendment***

##### Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 32 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The amended claim recites, "detection of pancreatitis by determining if the concentration of the protein or fragment thereof represents an increased level of the protein or fragment thereof in the blood or urine of the individual." As "increased" is a relative term, the claim must specify what is being compared in the method of diagnosis. A statement that a certain property is

Art Unit: 1636

increased might have many divergent meanings without ~~is~~ some statement as to what is being compared. It is noted that, in reviewing the specification (particularly those sections cited for support in the third paragraph on page 4 of the 30 March Paper), the Examiner can find support only for the method wherein the concentration of the BSSP-5 protein is compared before and after induction of pancreatitis in an individual.

### *Conclusion*

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
